Proof of professionalism may be demonstrated in one of three ways:

- Membership in ASQ, an international affiliate society of ASQ, or another society that is a member of the American Association of Engineering Societies or the Accreditation Board for Engineering and Technology.
- Registration as a Professional Engineer.
- The signatures of two persons—ASQ members, members of an international affiliate society, or members of another recognized professional society—verifying that you are a qualified practitioner of the quality sciences.

**Examination**

Each certification candidate is required to pass a written examination that consists of multiple-choice questions that measure comprehension of the Body of Knowledge. The Manager of Quality/Organizational Excellence examination is a four-hour, two-part examination—150 multiple-choice questions and two constructed-response (essay) questions. It is offered in English.

The Certified Manager of Quality / Organizational Excellence is a professional who leads and champions process-improvement initiatives—everywhere from small businesses to multinational corporations—that can have regional or global focus in a variety of service and industrial settings.
